## TO DEFEND THE REGISTRARS.

### ARRAY OF DISTINGUISHED COUNSEL

**Simmons, Glenn, Manley and Buxton Will Do Their Utmost to See Justice Done the Accused—If Necessary, the Cases Will be Carried to the Highest Court in the Land—Four of the Cases Continued.**

Hon. F. M. Simmons, chairman of of the Democratic State Executive Committee, arrived from Raleigh on the noon train, accompanied by Judge T. B. Womack. He is here for the purpose of looking after the cases against the Democratic registrars indicted in the Federal Court.

The cases against Messrs. R. O. Fry and W. T. Roper, of Montgomery county, were called this morning and continued until the next term of court. The cases against Messrs. William Powell and J. A. Perry, of Burke county, were also continued, being transferred to Statesville. This leaves the Winston cases only open for trial at this term of court. Messrs. Hunter Wall and J. T. Thompson, the gentlemen indicted, are here. Their cases were called this afternoon, District Attorney Holton asking for a continuance until Monday. The trials were set for that day.

The registrars are represented by able counsel in the persons of Hon. F. M. Simmons and Messrs. R. B. Glenn, Clement Manley and J. C. Buxton. In speaking of the matter today, Mr, Simmons said they would do everything in their power to see that the accused received justice, carrying the cases to the highest court in the land if necessary.

Opinion differs as to the result of the trials. Some think the registrars will be convicted, regardless of the evidence, while others think the court will be in no haste to dispose of the cases, preferring to continue them until the next term.

A wealthy tobacconist from Winston who was in Greensboro today said the Democrats of the Twin City, in the event of the conviction of Messrs. Wall and Thompson, would make it exceedingly uncomfortable for certain persons who have been active in the prosecution, or persecution, as it is now generally styled.

### BUREAU OF INFORMATION.

**Will Look After Visitors to the Fair, Direct Them to Boarding Places, etc.**

At a meeting of the directors last night it was decided to establish a bureau of information in connection with the Fair. Mr. C. M. Vanstory and Capt. R. P. Gray were appointed as a committee to take the matter in charge. They have established headquarters at Murray Bros.' office, next door to The Telegram, where people may come for any information in regard to the Fair.

Boarding house keepers and others who are prepared to care for visitors are requested to send in their names at once, with their location, the number they can accomodate, rates, etc.

It is intended to make the bureau of information of assistance to all, and the co-operation of the public is requested.

**In Federal Court Today.**

In the Federal Court today the following cases were disposed of:

U. S. vs. L. D. Whitaker, of Yadkin county, guilty of illicit distilling; 30 days in prison.

Emery Whittington, of Wilkes, charged with illicit distilling; guilty.

Ben. Furgerson, of Surry county, illicit distilling; guilty.

**Put an End to Robbery.**

Raleigh Post.

We are glad that Judge Boyd will put an end to the petty, and often fraudulent, cases gotten up for Federal Court solely to make fees. The government, without a doubt has been systematically robbed year by year by this nefarious practice.

**Jarvis to Speak Here.**

Hon. T. J. Jarvis, one of the candidates for the United States Senate, will open his campaign in Greensboro, having an appointment to speak in the court house here on Saturday night, the 15th inst. He will be heard with interest.

Mr. W. A. Fields is sick at his home on Arlington street.

## LAW SUIT IN CHARLOTTE.

**The Brenizers Suing for Damages—Richard Morse Gives the Voters Fair Warning About a Prospective Journey.**

Correspondence of The Telegram.

Charlotte, Oct. 4—One of the biggest law suits of the present criminal court is now in progress here, involving $20,000. Capt. and Mrs. A. G. Brenizer are suing Henkle, Craig & Co., liverymen, of Blowing Rock, for injuries sustained by Mrs. Brenizer last summer as the result of a runaway of a team belonging to the above company. Ten of the ablest lawyers of this section and about forty-five witnesses are taking part in the case which will likely consume the remainder of the week.

Dick Morse, the well known temperance agitator of this city, has thoroughly canvassed the town with a banner, on which is inscribed: "Take warning Democrats and Republicans! If you vote with the saloon keeper in the coming election you will go to hell with him whether you are a church member or not."

## CONTRIBUTORS TO THE FAIR.

**Those Who Have Put Their Money in the Enterprise—Other are Asked to Take Stock.**

The Telegram is requested to again publish the names of the stockholders of the Central Carolina Fair Association, that the public may know who is supporting the enterprise. The association is in need of more money and hopes the business men and others of Greensboro who have not contributed will do so. The following are the stockholders:

During September there were 257 cases of yellow fever in Havana, with a mortality of 25 per cent. There are 84 cases now under treatment. Twenty-eight cases have been reported in 48 hours.

**China to Outstrip Japan.**

When the outside interference which is now inevitable shall have removed or modified the existing bars to trade China will leave Japan far behind from the industrial standpoint. The Chinese are as remarkable for their commercial morality as the Japanese are for the opposite; they are more solid, better balanced, take longer views, and are, in short, more merchants and less peddlers than the same class in Japan, and the natural resources of their immense country are such as Japan cannot hope to compete with, poor as she is in mineral wealth and subject to the most diastrous natural convulsions.

**Large Cotton Gin.**

The largest cotton ginning plant in the world is now under construction at Corsicana, Tex., and the next largest is being constructed at Bryan, Tex. A third is being put in at Mexia, Tex.

**Nice Teacups.**

Among the exhibits at the Paris exposition is a set of teacups, the cheapest of which is valued at $600.

## THE FURTHER CONCESSIONS.

### MINERS NEED EXPECT NOTHING

**President Maxwell of the New Jersey Central Announces that if the Miners Don't Accept the Ten Per Cent Offer the Strike Will be Fought to Finish—Decision of the Operators Reached Last Evening.**

By Wire to The Telegram.

New York, Oct. 5.—President Maxwell, of the New Jersey Central Railroad, definitely announced this morning that no further concessions would be granted the striking miners, and that if they didn't accept the ten per cent offer, the strike would be fought out. It is supposed that this decision was reached at a joint meeting of railway presidents and operators held in the Lehigh Valley offices in this city last evening.

GUARED BY ARMED DEPUTIES.

Pottsville, Oct. 5.—All but two hundred miners of the North Franklin colliery at Treverton stayed away this morning for fear of causing a riot. The workers are guarded by two hundred and fifty armed deputies.

ALL LEHIGH WORKING.

Lansford, Oct. 5—All Lehigh's ten colleries are working despite strenous efforts to tie them up in the panther valley. Two big meetings were held last night but the men are all working as usual today.

LAST COLLIERY CLOSED.

Shenandoah, Oct. 5.—It is reported here that the North Franklin colliery at Treverton, operated by the Reading Company, is idle, the employees having failed to report. There was no disturbance. This was the last Reading colliery working.

## A SPLENDID ATTRACTION.

**Dr. Griffith Buys a Freak Horse to Exhibit at the Fair.**

Dr. J. W. Griffith has secured one of the greatest attractions for the Fair that has yet been mentioned. It is something both new and unique and everybody will want to see it.

The attraction is the freak horse from the Summerfield section, a description of which was given in The Telegram a few weeks ago. At the time it was suggested that the animal be secured as an exhibit at the Fair. Dr. Griffith acted on the suggestion and bought the horse after considerable difficulty, for the owner was peculiarly attached to his pet and did not wish to give him up.

The horse is beautiful and shapely, of a glossy black color. He has never been shod and his hoofs are turned upward something after the manner of snowshoes, being 23 inches long. His mane and tail are very long, the latter dragging the ground.

## TO ACCOMMODATE THE CROWDS.

**The Southern Arranging to Handle All the People Who May Visit the Fair.**

The Southern Railway is preparing to handle the immense crowds that will visit the Fair next week. Trains will be run between the station to the Fair grounds as often as occasion may demand, while extra coaches will be attached to the trains running through and going out of Greensboro.

There are so many passenger trains from all directions daily that it will not be necessary to operate extras. On Wednesday and Thurday the train returning to Ramseur will wait here until 6:30 p. m.; the southbound through freight on the A. & Y. until 6 p. m., and the train for Mt. Airy until 6 p. m.

A special train will be operated from Asheboro Thursday, arriving here at 10:25 a. m., and leaving at 5:30 p. m.

**Entertainment at Mrs. McAlister's.**

The following unique invitation has been issued to an entertainment at the home of Mrs. A. W. McAlister, on West Market street, this evening:

Come and let us together
roam
To Mrs. A. W. McAlister's
home,
Where each shall have
A walk for the cake,
To be given to the best
By Miss Kate Tate.

## RAILROAD TO BE BUILT.

**Plans Ordered for the Construction of a Branch Road from Tang Ho to Ching Wan Tao.**

By Wire to The Telegram.

Tien-Tsin, Oct. 5.—An order given Lung Li, commander-in-chief of the Northern armies, and one of the most influential men in China, to join Li Hung Chang, has been countermanded. An order has been sent to Shanghai for the immediate delivery of plans for the construction of a branch railroad from Tang Ho, on the Gulf of Lia Tung, to Ching Wan Tao, also for the erection of a pier at which ships may be moored. It is expected that this work will be completed within two months, thus obtaining facilities for a winter port.

**Seat of the Duke of Portland Burned.**

By Wire to The Telegram.

London, Oct. 5.—The Oxford wing of Welbeck Abbey, Nottinghamshire, the famous seat of the Duke of Portland, was burned today. Many priceless pictures and pieces of furniture were saved, but the loss is probably heavy. One account puts it at half million dollars, but this is doubtless exaggerated.

## MR. SILER'S TRIBUTE TO CARR.

**"Take," Says He, "The Central Jewel in the Silver Diadem for Senator" If We Can Find It.**

To the Editor of The Telegram:

Never, never, have a people had a more talented, brainy and splendid galaxy from which to choose a United States Senator, than is formed by Generals J. S Carr and Ransom, Gov. Jarvis, and Messrs. Simmons, Waddell, Morehead, Mason, Glenn, Overman, Osborne, and many others, quite as able.

Oh, for King Arthur's round table, at which to seat them all, equally honored. But we can crown only one now, and, as we cannot decide as to ability, let us try as to merit. A slanderous, but repenting liar asked a minister how much evil he supposed his false tongue had done "Take this bushel of thistle seed," said the minister, "and sow them, and harrow them in and I will talk to you." This done, "now one more thing," said the minister, "Go and gather up those seed, and bring them to me." "Oh! Oh!" said the liar, "that can never, never be done!"

And just as impossible is it to measure the good done for the people by at least one of the aspirants to the United States Senate. He has been sowing, not thistle seed, but money; not one crop, or for two or three campaigns, but for year and years. Not in strife and confusion, where an enemy would destroy the crops, but in love and peace to all. In agriculture, industry, schools of all kinds, missionary societies and churches; to Confederate and Spanish soldiers, and the poor and needy. Only think of more than $100,000 invested, not in monuments, that crumble with age, nor that time will corrode, but in relieving and elevating humanity; for the good of the soul, expand the mind on and on, to bear fruit forever! What a thought, what a thought!

No wonder that men of all parties have had a burning desire, for years, to honor this, our greatest benefactor. No wonder that we now see a long list of our prosperous business men, working for him. To this list should be added the entire claim of Confederate and late soldiers; and a very large per cent. of the farmers, mechanics, manufacturers, and school and college men, the clergy, and all their wives and children. What a grand army; and how much enthused, for the man who seems to us to be the central jewel in the silver diadem. No State in the Union will send a Senator of finer personal appearance, and more magnetism and power; and a more congenial companion for Mr. Bryan, or if the people vote to keep President McKinley in office, no doubt, he has long ago, been deeply impressed by the people's choice for United States Senator, Gen. Julian S. Carr.

Most sincerely,
C. FRANK SILER.

Erect, Randolph County.

The commanders of the international forces are arranging for a combined official reception of Field Marshal Count Von Waldersee. A detachment of mixed cavalry will escort him from Tung Chow to Pekin.

## SOUTHERN CHINA EXCITED.

### POSITION OF FOREIGNERS UNSAFE.

**Regular Troops Are Unable to Maintain Order—Anti-Christian Riots in Canton Districts—Astonishment Great When Chinese Received Notification that the Degradation of Prominent Members of the Court Was Necessary—Indemnity of $200,000,000.**

London, Oct. 5.—A Hong Kong despatch says that southern China is a state of great excitement. A rebellion is threatened in Kwaisin, where the Chinese regualar troops seem unable to maintain order. In the Canton district there have been anti Christian riots and several missions were destroyed. The general position of foreigners is unsafe owing to the imminence of a native uprising.

GREAT ASTONISHMENT.

Shanghai, Oct. 5.—The astonishment of the Chinese was great when yesterday they received official notification from the viceroy that foreign pressure had necessitated the degration of prominent members of the court. It is reported that the allies will demand an indemnity of two hundred million dollars.

**Fire Station Burned.**

By Wire to The Telegram

Waltham, Mass., Oct. 5.—The south fire station, practically the chief fire station of the city, was burned this morning with six horses and two pieces of apparatus. Seven firemen were hurt, but none seriously, and there were casualities among volunteers. The loss is $35,000.

**A Prisoner Months Before His Death.**

By Wire to The Telegram.

New York, Oct. 5.—It developed today that Millionaire Rice, whose sudden death and the presentation of heavy checks by Lawyer Patrick excited so much attention, was a prisoner in his room many months before his death.

**Germans Will Winter 8,000 Men at Pekin.**

By Wire to The Telegram.

Pekin, Oct. 5.—It is announced that the Germans will winter eight thousand men here. The British are reducing their force in preparation for the winter. A Thousand coolies will start for India soon and the Indian cavalry will probably be withdrawn.

## A PISTOL AND A RAZOR.

**Partners in a Duplin Blind Tiger Use These Weapons With Telling Effect.**

The Police Court has another case entered on the docket from Duplin. Last night Will Claiborn and Hanna Setzer, both colored, who seem to have been partners in a blind tiger, resorted to blows to settle a misunderstanding. Will thought it advisable to use a pistol, and as a result, Hanna's body now holds four bullets. She was not incapacitated, however, from wielding a razor, which she handled with telling effect on her assailant.

The row occurred about 10 o'clock and was not reported to the police officers until this morning, when it was ascertained that Claiborn had fled.

The place where the fight occurred is one of the toughest joints in disreputable Duplin.

## ON THE TOBACCO MARKET.

**Good Sales at the Warehouses—A Light Crop, But Fair Prices.**

The Greensboro warehouses are having good sales of tobacco now, the offerings today being the heaviest of the week. The weather for the past few days has been quite favorable for handling the weed.

As is the case everywhere, the crop in the territory contiguous to Greensboro is light and of a poor grade, though the prices are fair, taking everything into consideration. The dealers on the Greensboro market are buying all they can get.

**Special Meeting of the Aldermen.**

The Board of Aldermen held a special meeting last night for the purpose of conferring further with representatives of the Greensboro Water Supply Company, but on account of the company having gone into the hands of a receiver since the meeting was called, it was impossible to transact any business. The Aldermen talked the matter over informally.

## CHRISTIAN SCIENCE SQUABBLE.

PREACHING FOR AND AGAINST IT.

**The Difficulties of the Iron Furnaces—A Sensational Charge That Rebublicans are Uttering to Get Their Followers to Vote for Bryan so That They Can Vote Against Simmons.**

Special Correspondence of The Telegram.

Raleigh, Oct. 5.—Last Sunday Rev. A. A. Marshal, pastor of the Baptist church, preached against "Christian Science." Next Sunday Rev. W. D. Hubbard, pastor of the Baptist Tabernacle, will preach in favor of it. This is quite a complication.

During the year 494 marriage license have been granted in this county.

The mean temperature here during September was 75.8 degrees, which is 3.8 above the average. The rainfall was only 2 13 inches, which is an inch above the average. The excess of daily mean temperature during the month was 4 degrees, and this year is no less than 34.6 degrees. The deficiency in rainfall this year is 2 inches.

Gen. Robt. F. Hoke has returned to his home here from Lincoln Lithia Springs, where the season was very successful. The General reports but little doing at the iron mine at Cranberry, or indeed the iron business generally. It requires along period of activity to properly develop the iron industry. For instance, a furnace ought to be in blast five years. The iron industry is a very expensive one, as costly preparations are prerequisite. The late boom in iron was too brief to be of great value.

St. Paul's African Methodist Episcopal church here is almost ready for occupancy. It is an imposing building and was begun in 1894. It has cost something like $30,000, of which the white people gave a good proportion. The seating capacity is 1800. The ceiling is lofty and is of polished pine, and there are large and handsome stained glass windows. The church is really the work of Rev. R. H. W. Leak, now at Philadelphia.

The Willard hosiery mills here now employs 125 persons, and the daily out put is 300 dozen pairs of hose. About half of the former machinery has been replaced with that making fine goods.

The Seaboard Air Line is now putting down 16 miles of 80 pound rail south of here, from this city to Apex. Later it will put down the remainder to Hamlet. The company is also building a passenger station and offices for train master, superintendent, etc., at Hamlet.

The register of deeds of this county says there is a decrease of at least 20 per cent. in the number of crop mortgages and liens given by farmers this year as compared with last year.

At the annual meeting of Confederate Veterans here on the night of the day on which the Vance statute was unveiled in August, Gen. Carr, the commander of the Veterans, declared he would completely equip the new hospital at the Soldier's Home here. Some of the Veterans demured, saying they would do their part and that he could make up the deficiency. But he has carried out his promise to the letter and completely equipped the hospital for 50 patients. This includes metalic cots, chinaware, washstands, chairs, etc. The contractor says the hospital will quarter 100 persons, but the inmates of the home say 60 is about the number. There are four wards and this will give 15 to the ward. Your correspondent last month fully described the new hospital. The Daughters of the Confederacy are to give a reception at the Soldier's Home next week, during their annual convention here.

Physicians speaking about the type of the typhoid fever in this State this year remarked that it is the worst they ever saw such has been the tendency toward hemorrhages. Some of the recoveries have been almost miraculous. At the Rex hospital here the success in cures has been remarkable.

Secretary Pearsal of the Democratic State Committee says that while now the Senatorial matter is attracting far more attention in this State than National matters, he believes it will soon be fought out and that then the people will return to the main issue; that the senatorial dispute will subside and the main issue come first.

Francis D. Martin who is hard at work organizing democratic clubs, said a few nights ago that the white republicans were working hard to induce their people to vote the democratic ticket next month so as to be privileged to vote in the senatorial primary and "knife" F. M. Simmons, whom they so bitterly hate. He said then that they had gotten their people pretty well in hand and that the hitch was mainly in the 8th and 9th district. He said he understood they were getting to hive in these districts too, and that the break as regards Blackburn in the 8th is equivalent to saying that he can't be elected and that it is of just as much to do what mischief can be done. He says the quarrel with Blackburn is for the purpose of dropping him.

The Secretary of State is shipping the public and private laws enacted at the June session of the legislature—9000 of the former and 2000 of the latter.

A number of the Democratic State Committee says that from the reports which came in from the 8th and 9th districts it is the consensus of opinion that the senatorial fight is injuring the National campaign; that the report is to the effect that the strongest party workers there are are fighting on the senatorial question and not working for Bryan and the congressman as they ought to among the uncertain voters.

Some of the strongest advocates in those districts of the primary system or plans are now anxious for postponment, for abandonment in general, or else abandonment in their districts.

The annual debate on the evening of Thanksgiving day, in the Academy of Music, between Wake Forest and Trinity colleges, will be quite a feature. The subject of debate will be the question "Resolved, that the North Carolina Dispensary system is unwise." Trinity in the affirmative, Wake Forest, negative.

In this county 4060 farmers own their land.

A newspaper man here made a bet with a politician that in the last election 2,500 more votes were cast in Wake county than in any other in the State. The newspaper man lost, but by 47 only.

Ben Duke, of Durham, has given $1,000 to the Methodist Orphanage here.

## A BIG MEETING YESTERDAY.

OF NATIONAL DEMOCRATIC CLUBS.

**A Strong Speech by Mr. Bryan, One Each by Cockran, Stevenson, Sovereign and Bishop Turner--Racy Resolutions Passed. Bishop Turner Says His Young Men Are Thinking for Themselves With Fresh-Born Disinterested Patriotism.**

Indianapolis, Ind., Oct. 4.—The hall in which was assembled the National Association of Democratic Clubs was thronged with people this afternoon, probably 5,000 being present, but as the hour approached for the advent of Mr. Bryan, at 4 o'clock, the aisles were filled and the halls thronged to a degree of almost suffocation. After Adlai E. Stevenson had concluded, James R. Sovereign, ex-grand master workman of the Knights of Labor spoke, dealing with the workingman from a political standpoint. He said labor is the foundation of liberty in all the world. Mr. Sovereign was followed by Bishop J. Milton Turner, minister to Liberia under Grant's administration, who spoke briefly and in part as follows:

"A great many of my race, who formed the negro population of the United States 24 years ago, have already been promoted and have gone to their good Christian fathers, but the boys are coming forth in teeming hundreds and thousands from that palladium and safeguard of American institutions, the public school system of our country, and, unlike Uncle Tom and Aunt Sally, they are doing their own thinking like other young Americans for themselves.

"We come with a fresh-born disinterested patriotism to put forth our might at this time in the States where we have been making the Presidents for the last 25 or 30 years, and we think this time, through our boys, we will be able to make up such a quota for the election of William Jennings Bryan that we will elect this ticket without any possibility of McKinley defeating it."

As Bishop Turner concluded, Mr. Bryan appeared upon the platform. He had reached the city a few minutes before 3 o'clock, but did not arrive at the hall until a quarter past 4 o'clock. He was escorted through the streets by a number of marching clubs. As soon as the Democratic national candidate appeared on the platform there was a shout of greeting and this soon developed into a demonstration which continued for about six minutes, until there was a call for a cessation from Mr. Bryan himself. The speech was liberally applauded throughout and when it was concluded there was a rush to the stage on the part of those in the audience who wished to shake hands with him. He, however, avoided this demonstration and soon found his way back to his seat.

At the concluding session of the convention Hon. Bourke Cockran was the speaker. Governor McMillin, of Tennessee, called the meeting to order and introduced Mr. Cockran. Mr. Cockran devoted his speech to the question of imperialism.

Adlai E. Stevenson addressed the convention at the afternoon session. He said in part: "The re-election of President McKinley will be held by himself and his party—and justly so—an endorsement of the policy of the administration towards the Philippine Islands. Let no Republican with uneasy conscience, delude himself with the hope that, if sustained at the polls, there will be a change in the methods and policy of the administration. Such delusion is worse than midsummer madness. The re-election of the present executive would be a vote of confidence; a solemn endorsement by the American people of a war of conquest—the salient feature of his administration. The condemnation of the administration by the ballot is our only hope of escape from the perilous policy it has inaugurated.

The resolutions adopted commend the Kansas City platform; declare that a Democratic Club should be organized in every precinct in the nation; appeal to every democrat in the country to pledge himself to win one vote for the party; declare that the evidence that great corporations are endeavoring to control the votes of their employees is too plain to be denied; condemn the present administration for its failure to enforce the Federal anti-trust statute; denounce the administration for "permitting two republics in South Africa to be destroyed without one word of sympathy;" condemn failure to vigorously prosecute the men connected with the Cuban postal frauds; urge that all American institutions are in danger; proclaim sympathy with the coal miners of Pennsylvania in their stand against the anthracite coal trust, and hope that they may secure such speedy settlement as will afford them better wages; assert the election of McKinley would mean the perpetuation of war taxes, entangling alliances with the monarchies of Europe and colonial exploitations in remote parts of the world, compelling an increase of the national debt and enforced military service, and declare the election of Mr. Bryan will mean the salvation of the country."

### CORNERED ON TRUSTS.

The Republicans have justly made a great deal of fuss over the connection of Tammany, the leading Democratic influence in New York politics, with the ice trust of that city. All sensible men of course knew that this disgraceful affair did not connect the Democratic party with trusts, yet the Republicans have made much capital out of it, more or less justly, because Tammany officials are conspicuous supporters of Mr. Bryan. In his speech before the Democratic clubs at Indianapolis yesterday Mr. Bryan replied to the criticism as follows:

The only trust that any Republican in this country seems to know about is the ice trust, and the Republicans don't know much about that, for if they did, they would know that every stockholder is a Republican. If they knew more about the ice trust they would know that its harm was confined to the people of New York, and if they knew that they had as Governor of the State of New York a man who would not let any harm come to his people, they would know that there would be no ice trust there, for the Governor would kill it.

New York has a Republican Governor and a Republican Legislature and you Republicans who have been worrying so much about the ice trust can ease your minds, for as long as the Governor is out West making speeches, you may be sure nobody is being hurt in New York. Why is it that no Republican knows anything about the Standard Oil trust or the sugar trust, or the salt trust, of window glass, or the envelope trust, or the writing papers trust, or the trust in paper, paper that Republican editors use to write a defence of the trust upon? Why don't they know about these trusts? Is it dishonesty or is it ignorance? Why is it that no Republican speaks out against any trust except the ice trust, and why is it that the Republicans in charge do not destroy that so you can believe Mr. Hanna when he says there are no trusts?

And, now what will Mr. Hanna say?

The indications are that cotton, which has reached such excellent figures since the market opened, will continue to bring good prices. A press dispatch says that the conference in Philadelphia between the yarn dealers of that city and the Southern Cotton Spinners' Association was concluded yesterday evening "with the adoption of a new schedule of prices. The meeting was devoid of any contention and the schedule is said to equally satisfy both spinners and dealers. The new prices are about 10 per cent. increase all around over last year's figures, and they were based on the present condition of the cotton market, which seems prosperous enough at this time to permit an increase from 6 to 7 cents per pound for manufactured warps over current prices of raw material. The schedule is so arranged as to meet further increases or decreases in prices in the cotton market."

All good citizens should greatly deplore the trouble that is cropping out here and there between laborers and their employers in the South, especially in North Carolina. We fear that these are only an indication of what is to follow. As before, we repeat that there is great reason for moderation and forbearance on both sides.

### WITH THE EDITORS.

Why should the friends of Mr. Carr say hard things about Mr. Simmons and those who expect to cast their vote for him for United States Senator, and equally as true, why should the friends of Mr. Simmons say unfair things, which are calculated to cause ill feelings about Mr. Carr and his friends? It is a common thing to hear people, men of better judgment, or they should be such, saying that Carr's followers are bought and that they are not sincere in their motives. We take it that Mr. Carr's friends are just as sincere as Mr. Simmons' and why all this "rot" about selling out or being bought? It is an insult and should be treated as such.—Dunn Banner.

---

The Philadelphia Times, which has always been an independent Democratic paper, but which supported McKinley in 1896, is out in a double-headed editorial for Bryan and Stevenson. It says that its policy for four years ago was dictated by good faith but that it was wrong and that it had repented and recanted. Its present course is influenced by its apprehension concerning "imperialism" and "militarism." The Times is an able and honorable newspaper. Nobody can doubt its sincerity now, any more than this could have been justly called in question in 1896. Of course its opposition to the Republican candidate will be without practical effect upon rock-ribbed Pennsylvania, but the Times' influence extends far beyond the confines of its own State and its influence will be helpful to the Democratic cause elsewhere than at home.—Charlotte Observer.

Since that time he has been in the hospital.

### FAMILY LIVES IN A TREE.

**New Jersey Man Who Has Built Himself a Home Well Above Ground.**

John Rausch, of Haledon, N. J., and his family live up a tree. A more unique habitation cannot be imagined. In the branches of a big oak he has built his home. It is perched among the leaves and over the top of the queer abode towers the top of the tree, forming its chief roof.

Rausch, says a letter to the St. Louis Republic, is a German laborer who has worked around Haledon for five years. He has seldom earned more than a dollar a day. He grew tired of paying rent and, with the German's love of owning a home of his own, he tried to buy some property from the real estate dealer of the place, William Buschman. The latter owns nearly all the land in that vicinity, and is anxious to have the property improved. He told Rausch he would give him a nice lot for little money if he would build a house. True the lot was far away from the road, but it was dry and well situated. It was covered with fine trees, and an especially majestic oak grew in the center.

After paying for the lot Rausch found he hadn't money enough to start the house he had promised to build. His wife and three small children ate up his meager earnings. Buschman told him he would have to give up the lot if he didn't begin the house.

Rausch thereupon secured a number of big boxes. He had conceived the idea of making the branches of the tree serve for uprights and timbers.

The nails in the boxes were sufficient. On the strong lower branches he crossed and recrossed the boards. It made a very uneven floor, but the branches were strong and the boards would not slip. The house is circular, but very irregular.

Above all there is a smaller structure that Rausch calls his garret. When the wind blows the whole structure shakes and swings like a hammock, yet the whole family live there.

**Secret Intact Four Centuries.**

Chinese porcelain was common in Europe for 400 years before a German potter succeeded in finding out the process of making it. The Chinese pottery is scattered all over the world, and everywhere valued; but nowhere was the distribution more curious than in western Canada. Early in the century a Chinese junk was cast away on the Pacific coast of America just south of Vancouver island, and its cargo of willow-pattern plates fell into the hands of the Hudson Bay company's officers. Still in the remotest trading posts of the fur traders a few fine specimens remain.—Cincinnati Inquirer.

### SOMETHING ABOUT "THE SLEEPING CAR."

William Dean Howells is one of our best authors and play-writers, and has written a series of short one act plays of which "The Sleeping Car" is one of the funniest. This one will be given on Tuesday night at the Academy of Music. Miss May Small will take the leading part of the woman who keeps everybody awake by her talking. The other passengers protest and at some uncouth remarks made by one of them, the Californian (Dr. Chas. Scott,) appears to take her part when, a lively time ensues. Later she mistakes the berth of her champion, for that of her baby, and then her husband, who comes aboard, mistakes it for that of his wife, etc., making altogether one of the funniest plays imaginable.

It is useless to say anything about Miss Small. She has delighted many Greensboro audiences and we are sure Dr. Scott will do the same.

## MONOPOLY IN CAMPHOR GUM.

**The Entire Trade of the World Is Now in the Hands of a Strong Syndicate.**

Within a year the camphor trade of the world has become a monopoly. The trees which yield this fragrant and useful gum are to be found all over Asia and the East Indies, but the principal production from them is confined to the island of Formosa, which belongs to Japan. China was never able to furnish more than 200,000 pounds a year, and Japan now produces about 300,000. But Formosa's annual output for several years past has been between 6,000,000 and 7,000,000 pounds. Little is to be had at present from any other source and there is no prospect of any change in the situation for a long time to come, says the New York Tribune.

In deciding to exercise control over the production of camphor Japan has been actuated by two motives. In the first place she wants to obtain revenue therefrom, as France does from the match and cigar industries. But she also seeks to avert the killing of the goose which lays the golden eggs for her. In other words, she has undertaken to protect the camphor forests, which were in danger of extinction. A recent consular report from Tamsui declares that no fewer than 1,500 armed guards are to be placed on duty on the edge of the forests, in order to enforce regulations which have recently been adopted. The destruction of young camphor trees and of shoots from old stumps has been prohibited by law. The gum is obtained by felling the larger trees, splitting them up and boiling the wood. In the past it has been common to cut down young trees for fuel, but this practice is now to be stopped.

## Bad Climate Almost a Thing of the Past.

**Sanitary Observances Have Wrought a Wonderful Change in the Island — Army Methods.**

People who knew Cuba in the days before the Spanish war, when there was yellow fever on the island at all times of the year, and when there were few places there where people from the north could live comfortably in the summer months, were pleasantly surprised to see the members of the Eighth looking hale and robust, much as they would have looked after a camp tour at Peekskill, and showing none of the signs of the deadliness of the Cuban climate. Inquiry among the officers and men demonstrated that the bad climate of Cuba is, to a great extent, a matter of the past. It is just as warm there as it ever was, but many of the causes of disease have been removed or lessened to such an extent that they have been rendered practically harmless, says the New York Tribune.

Dr. W. P. Lawrence, assistant surgeon, who returned with the troops, said: "The improvements in the sanitary conditions have produced the great change for the better. Drainage systems and cleanliness have changed the places in Cuba to an extent that is remarkable. In the town of Sancti Spiritus, which has a population of about 12,500, the death rate was 450 a month last year, and now it is about 30. The troops enjoyed good health in the place, and we rarely had more than one per cent. on the sick roll. There are occasional yellow fever cases, but they are sporadic, and not epidemic, and the dread of the disease has passed away."

Dr. L. S. Hughes, who was stationed at Caibarien, and Dr. Shelly, whose work was at Matanzas, made similar reports, but all agreed that the facts that the troops from Cuba looked well and that the rate of mortality is low do not indicate that Cuba is a desirable place as a permanent residence for people from the north. With proper care and attention to the rules of diet and mode of life laid down by the army surgeons, they say, men may thrive in Cuba for a year or two, but after that time they will become thin blooded and malarial and it will become more difficult for them to throw off the native fevers. For that reason nearly all physicians advocate the system by which troops may be returned to the north after being on the island 12 or 18 months, having their places taken by men fresh from a more temperate climate.

In proof of the assertion that army methods do much to avert disease at the Cuban military stations, surgeons point to the fact that at all the posts the rate of mortality among the natives is much in excess of that among the soldiers, and wherever a post has been establishd the general health becomes improved.

# Fashion's Picture

Changes so often. Come here when you will and you'll see the world of textiles as in popular favor at the moment. So quickly come the new conceptions of fashion that many exquiste things are here and gone before other stores get them. This is the reason the mere mention of our name commands attention, because it implies an association with the newest and choicest merchandise offerings on earth. As is so often said, we are first in style, first in quality, and first in the hearts of our citizens. To keep the people posted about the values we receive almost hourly during the day, so that all might have an equal showing, why, we would be forced to issue an extra bulletin. It is wise, therefore, and to your benefit, to do as your neighbors do—come early and often. No telling what a day may bring forth, or at what hour an extra freight train will pull in at the station and unload a cargo of goods for us. Here today and gone tomorrow—this is the way we handle HOT STUFF.

## Biggest Line of Dress Goods

In the Carolinas—exquisite design, superior quality, and moderate price. So moderate, indeed you'll delight to call them cheap. There is warmth in every fold of the beautiful goods we're selling. Everything here for the family—from the "Baby to Grandma"—you come in somewhere along the line.

## IMPORTANT!

Greensboro, N. C., Sept. 26th, 1900.

**TO OUR CUSTOMERS:**

On and after October 15th, 1900, we, the undersigned, will do a strictly cash business. Our reasons are as follows:

1st. Absolute NECESSITY.

2nd. Laundry, the world over, is a recognized cash business and justly so.

3rd. Our accounts are necessarily small, and it causes an endless amount of confusion and expense to collect, besides losses each year in bad bills.

4th. All of our current expenses, such as labor, fuel, gas and supplies are cash, hence the stand we take is forced upon us. While we very much regret, in most cases, to exact the spot cash, yet we must treat all alike, and we see no other way out of the difficulty. We trust our customers will lend us their aid by stating when to return laundry and by being prepared to pay for same when delivered. Our drivers will have positive instructions to return to the laundry all packages not paid for.

We have on sale at office (for cash) coupon books from $1 to $5 which can be left at convenient place at home, so that on delivery of bundle the amount of laundry bill can be torn out by the driver.

VERY RESPECTFULLY,

### Peculiar Condition on Which William Berlin Is Bequeathed a Farm.

Upon the condition that William Berlin, 32 years old, shall take good care of his mother during her lifetime, and shall furnish her with all the firewood "made ready for the stove" and coal that she may require, he is to receive a farm of 125 acres at Palatine, Ill., from the estate of his deceased father, John C. Berlin, whose will was filed in the probate court at Chicago the other day.

Mr. Berlin died a month ago, leaving real estate worth $6,100, the whole of which he devised to his widow, four sons and three daughters. But William was a favorite son of the father, and he received the largest portion of the property upon the above-named condition. The widow gets the homestead.

This clause of the instrument reads as follows: "Provided my son, William Berlin, shall be kind to his mother and shall furnish her all the firewood, made ready for the stove, or coal that she may require during her lifetime, or where she may require it, and he shall prepare and conduct the farm agreeable to the wishes of his mother, and shall deliver to her annually one-fourth of all the proceeds from said farm in money after threshing shall be done."

The will was drawn in 1896, when William was 28 years old.

### WEED'S MARVELOUS CURES.

**Mountaineer Finds Simple Remedy for Bite of Mad Dogs and Snakes.**

A mountaineer named Vincent, who lives on Lookout mountain near Durham, Ga., strode into that village to find it excited over the appearance of a mad dog. He drove the villagers indoors, and, unarmed, awaited the coming of the dog, which, after a desperate struggle, he strangled. Applying to the wounds a poisonous weed known to the mountaineers as gall of the earth, he was healed. To further demonstrate the curative properties of the weed, he permitted a copperhead and a rattlesnake to bite him and was successfully healed. He went to a picnic at Lulu lake on Lookout mountain with three rattlesnakes. In the presence of the crowd he worried the snakes, making them bite him until they would do so no more. He finally put his tongue in the snake's mouth. He begged those present to let the snakes bite them, guaranteeing a cure. A newspaper correspondent paid Vincent 50 cents to show him the weed, but he declined to try its merits. A young man present, however, did so, and after being struck twice by the snake, applied the weed to the bite and ate a portion of it, no bad effect resulting. The ignorant mountaineers are excited over Vincent's acts, and think him possessed of supernatural powers. On Saturday he cured a young man who was attacked by a copperhead, although it was two hours before he reached him. A pointer dog belonging to a citizen of Chattanooga, while hunting, was bitten by a copperhead. An application of the weed and a small portion mixed in milk cured the dog.

### ROBBED THE GRAVE.

A startling incident, of which Mr John Oliver, of Philadelphia, was the subject, is narrated by him as follows; 'I was in a most dreadful condition tion. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides; no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying Electric Bitters: and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks and am now a well man. I know they saved my life, and robbed the grave of another victim." No one should fail to try them. Only 50 cents per bottle at C. E. Holton's drug store.

WINE OF CARDUI

**Woman's Crowning Virtue.**

BELTON, Mo., July 27.

For years I suffered terrible pains every month and my doctor told me I could not be cured except by an operation. I felt I could not submit to that and was so despondent I had given up all hopes of a cure. My husband insisted on my trying Wine of Cardui and at last thank God I did try it. Last month I did not have a pain, and did all my work, which I had not done in seven years.

MRS. MINNIE LITTLE.

McELREE'S **Wine of Cardui**

Modesty is the crowning virtue of American women. It is the trait that all mankind admires. A modest woman is the most pleasing of all created things. Because of this becoming virtue thousands of women prefer to suffer untold miseries rather than confide their troubles to a physician, and to even think of submitting to an examination is revolting. They can't get their own consent to an operation. Wine of Cardui permits sensitive women to retain their modesty. With it they can cure "female troubles" in the quiet of their own rooms. If special treatment is required they can write to the Advisory Department of the Chattanooga Medicine Co., and their letters will be promptly answered by women trained in the cure of womanly weaknesses and irregularities. There should be no hesitation. Delayed treatment means a chronic condition. The longer postponed the harder to cure.

Yes, August Flower still has the largest sale of any medicine in the civilized world. Your mothers and grandmothers never thought of using anything else for indigestion or biliousness. Doctors were scarce, and they seldom heard of appendicitis, nervous prostration or heart failure, etc. They used August Flower to clean out the system and stop fermentation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all they took when feeling dull and bad with headaches and othaches. You only need a few doses of Green's August Flower, in liquid form, to make you satisfied there is nothing serious the matter with you. For sale by Grissom & Fordham.

**SORES AND ULCERS.**

Sores and Ulcers never become chronic unless the blood is in poor condition—is sluggish, weak and unable to throw off the poisons that accumulate in it. The system must be relieved of the unhealthy matter through the sore, and great danger to life would follow should it heal before the blood has been made pure and healthy and all impurities eliminated from the system. S.S.S. begins the cure by first cleansing and invigorating the blood, building up the general health and removing from the system all morbid, effete matter. When this has been accomplished the discharge gradually ceases, and the sore or ulcer heals. It is the tendency of these old indolent sores to grow worse and worse, and eventually to destroy the bones. Local applications, while soothing and to some extent alleviate pain, cannot reach the seat of the trouble. S. S. S. does, and no matter how apparently hopeless your condition, even though your constitution has broken down, it will bring relief when nothing else can. It supplies the rich, pure blood necessary to heal the sore and nourish the debilitated, diseased body.

*A CONSTANT DRAIN UPON THE SYSTEM.*

Mr. J. B. Talbert, Lock Box 245, Winona, Miss., says: "Six years ago my leg from the knee to the foot was one solid sore. Several physicians treated me and I made two trips to Hot Springs, but found no relief. I was induced to try S. S. S., and it made a complete cure. I have been a perfectly well man ever since."

SSS is the only purely vegetable blood purifier known—contains no poisonous minerals to ruin the digestion and add to, rather than relieve your sufferings. If your flesh does not heal readily when scratched, bruised or cut, your blood is in bad condition, and any ordinary sore is apt to become chronic.

Send for our free book and write our physicians about your case. We make no charge for this service.

**A Question Easily Answered**

Some people ask me why I don't move around on Main street with such a fine line of furniture, always up todate in styles and highest grade of finish.

I can run my business at so much smaller expense here and can save my customers and friends nearly a fourth on same quality of goods. And the volume of goods that leaves this house daily prove this fact.

Call and look through and be convinced.

### A GIRL'S ADVENTURE.

**She Meets a Big Bear Without Losing Her Presence of Mind.**

The New York Sun is still adding to its stock of bear stories. One of the latest comes from Potter county, Pa., and by way of variety it is a girl who plays the principal part in the action.

Louise Berger, the 16-year-old daughter of Michael Berger, the owner of a small farm in the Kettle creek region, went to the woods to drive the cows to the shed, accompanied by a small shepherd dog.

Soon after entering the woods, about half a mile from the farmhouse, the dog began to act queerly and persisted in keeping at the girl's heels, as if afraid. While the girl scolded the dog she was horrified to see a monster black bear shambling toward her. She had heard her father tell about climbing trees to escape bears, and now she shinned up a smooth beech with the agility of a boy. The dog ran home howling, chased a short distance by the bear.

When the bear gave up the chase he came back to the tree where the girl was a captive. Her red hood had fallen on the ground. The bear picked it up. The girl screamed, and the bear raised his huge form against the tree as high as his legs would push him, but even then he was nearly ten feet from her. The girl's screams had been heard at the farmhouse down in the ravine, and out came her father on the double-quick.

When he reached the edge of the wood Mr. Berger saw the red dress of his daughter in the beech tree. The girl called to him to be quick. The bear wheeled toward the advancing farmer, gazed at him and his rifle just an instant and then started on a run for the thick woods.

But the big fellow was too fat to make good time, and Berger soon got within gunshot. Two bullets from the Winchester finished the brute. Then Louise slid down the tree and hurried home to tell her brother George to go to the woods and help his father bring home the bear.

**Shrewdness of the Rabbit.**

The negroes of the south tell many stories of the cleverness of the rabbit in outwitting its natural enemies, the dog, the fox and the wolf,and in circumventing every scheme intended for its punishment. This belief in the sagacity of the living rabbit gave rise to a belief that a dead rabbit has certain magic power, sand one of the evidences of the superstition is the habit of carrying a rabbit's foot for "good luck," and also as a charm against disease. It is the left hind foot that is preferred, and if it be taken from a rabbit that was in the habit of running through a graveyard its efficacy is largely increased.

**Empress Is Handicapped.**

Being a woman, the empress dowager is not, of course, able to run as fast as if she were an Aguinaldo or an "Oom Paul."

Large sun spots, astronomers say, caused the extreme heat this summer, and doctors declare nearly all the prostrations were induced by disorders of the stomach. Good health follows good digestion. Kodol Dyspepsia Cure digests what you eat. If you have indigestion or dyspepsia it will quickly relieve and permanently cure you. Howard Gardner.
